

The Company with a Heart

Nightingale's Nursing & Attendants is THE largest provider of in home personal care in SC. This according to the DHHS transparency site which can be viewed online.

Nightingale's provides caregivers that come into your home or into the hospital to sit with your loved one, etc. to assist you with your daily needs. Care such as the kind they provide prevents institutionalization into nursing homes and allows people to remain within their own homes and as independent as possible. Nightingale's also offers skilled nurses for private duty care to those requiring things such as ventilator support, G-tube medications, tracheostomy care and other activities that require the skills of a licensed nurse. Founded in 2001, the company has grown to employ over 650 employees and provides care to over 1000 clients in 25 counties of SC.

We strive to provide a good work environment by matching clients with their caregivers, providing back up for emergency fill ins to our clients when needed, offering exceptional employee benefits such as a retirement profit share plan, health, vision and life insurance, financial institutions partnerships that includes a credit union, annual banquet, ongoing education and certification programs for CPR and First Aide, Paid Days off, Holiday pay, and more! A happy employee takes care of our clients with enthusiasm. No one works in the care giving business very long without having the true heart of a caregiver. You either have it or you don't. We try to locate the ones that do and provide them with encouragement and a supportive work environment.

It's this kind of work ethic that has earned us our reputation around the state as "The Company with a Heart"! Our clients and our employees know we will not let them down and we will never give up when someone is in need!
